AUTO-STAR POWER BALL

-WS9120A/9120B/9120C

Features an internal pre-tensioner that allows you to start and stop exercising as you please; Just roll back the rotor in the direction of the arrow. Performance Digital LCD Counter, Battery-Free and Self-powered Digital display keeps track of your workout info, including historical top speed and more.

The ball built-in spring uses the inertia of the spring to rotate the center of the ball. The device rotates smoothly without noise. The spherical shell is made of special plastic material and is very durable. It is equipped with a high-grade silicone rubber anti-slip ring. It helps the gyro ball not to let go of your hand.
