VIRATING MASSAGE BALL

The vibrating ball allows for bodyweight pressure and vibration technology to accelerate pain relief. By increasing circulation and breaking up scar tissue, your body will begin to feel the healing difference. The spherical designs allows you to dig deep into difficult to reach areas such as feet, calf muscles, IT band, glutes, lower back and shoulders.

SELF MASSAGE TOOL
WS5120

Easy to control design provides countless ways to navigate the tool for optimal leverage and control to treat any area on the body. 6 specially designed therapy knobs. Relieve spasms, tight muscles, trigger points and pressure points.

- Size: 56x42cm, 45x20cm
- Material: ABS

BALANCE POD

Balance pods help to improve your dynamic balance, body awareness and coordination while getting a great upper and lower body workout. You can arrange the pods with the flat side down for more stabilization or flat side up for a balance challenge, giving you varied levels of difficulty.

- Size: 16cm
- Material: PVC

BALANCE PAD

The pad is widely used in reaction, coordination and motor skills training. It can be used as a sitting aid to help improve posture and core abdominal muscle strength. The simple yet effective and lightweight design makes the exercise pad portable and easy to use at home or take with you to the gym. Non slip surface, easy clean, water resistant. Suitable for beginner to professional users.

Item No.	Material	Size

KINESIOLOGY TAPE

-WS3601

- Material: Cotton, Spandex
- Width: 25/50/75/100mm
- Length: 4.5/5m

LATEX-FREE MATERIAL

MINIMIZES ALLERGIES AND SKIN IRRITATION.

EASY TO CUT FABRIC

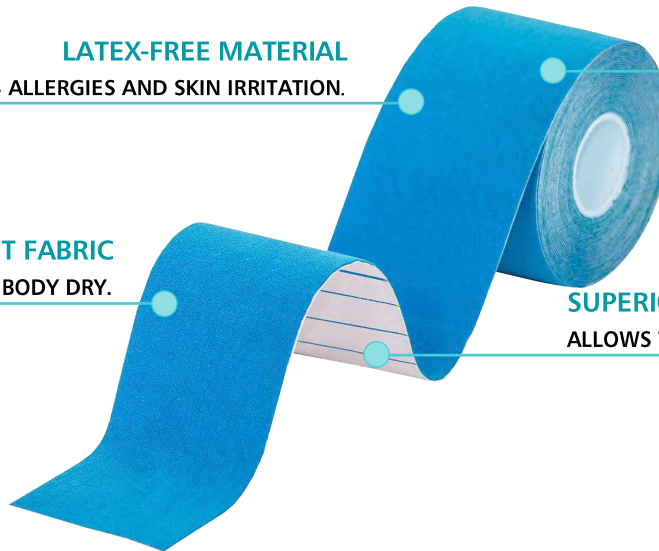

MINIMAL HASSLE AND SAVES TIMES

WATER RESISTANT FABRIC

KEEP BODY DRY.

SUPERIOR ADHESIVE

ALLOWS TAPE TO STAY ON CONSISTENTLY.

Description:

- A rehabilitative taping technique applied over muscles to reduce pain and inflammation, relax overused tired muscles and support muscles movement.
- This taping is designed to improve the body's natural healing process by helping to increase blood flow around the muscle.
- It is non-restrictive, allowing for a full range of motion; the wave pattern adhesive backing moves with the skin and muscles.

Features:

- Support your muscles and joints without restricting movement.
- Correct joint malalignment and improve proprioception.
- Normalize muscle functions, improve lymphatic and blood flow.
- Use 100% medical glue, no worry about allergy.
- Waterproof and breathable.
- With graduation on the back, convenient to cut.

BALANCE CUSHION

The balance cushion is extremely versatile, compact and portable. The disc shaped cushion is excellent for a wide variety of balance, strengthening and rehabilitation exercises. It's also great to relieve back pain and correct posture when sitting. Alternately standing on the balance cushion will increase core stability and balance.

- Size: 34cm diameter
- Material: PVC

WEDGE CUSHION

WS1145E

The wedge cushion helps to relieve pain and discomfort and reduce slouching by realigning the spine into its correct position. The wedge gently tilts the pelvis forward putting a natural and neutral curve back into the spine to correct poor posture and encourage us to sit up straight. Crafted from high quality durable PVC our support wedge offers excellent support and unrivalled comfort with a non-slip textured side for improved grip.

- Material: PVC
- Size: 10"x10"x3"

CALF STRETCHER

Ergonomically designed, gently and evenly stretches strained leg muscle to relieve Achilles tendinitis, plantar fasciitis, the pain of heel, feet, shin splint, improves circulation and reduces fatigue. Two sheets of anti-skid foams on the bottom of the foot rocker ensures the stretcher does not slide when used on any type of surface. A raised heel plate locks the heel in place to prevent the foot from slipping while in use.
